CRĒDO™ OPERATING ROOM CONTAINERS

Blood banks, hospitals, emergency medical services, and military organisations know the value of protecting blood supplies. Safely transporting materials can mean the difference between life and death and professionals need a solution that will ensure precise thermal control with the ability to be seamlessly reinstated into inventory.

At the core of every Crēdo™ Operating Room Container is our patented TIC™ system surrounding the critical payload with walls of PCM (phase change material) to maintain required temperature range and duration.

WHY CHOOSE CRĒDO™ OPERATING ROOM CONTAINER?

- Patented TIC™ system and PCM-based
- Designed and tested to last in harsh conditions
- Reusable phase change technology reduces costs and eliminates the complexity and restrictions of outdated components such as wet/dry ice and gel packs
- Quality, durable container construction
